### **POCKET COMPENDIUM OF AUSTRALIAN STATISTICS (1.2)**

Concentrates on 'basic' statistics, its aim being to provide something in all statistical fields, so that the inquirer can obtain an idea of the order of magnitude or relative importance of a subject. Contains the names of current holders of vice-regal positions, members of the Australian Parliament, the Australian Government Ministry; and lists of Bureau publications and public holidays.

### **QUARTERLY SUMMARY OF AUSTRALIAN STATISTICS (1.3)**

A comprehensive quarterly publication intended primarily for the issue of annual and other cumulative series, it contains a wide range of economic and social statistics, differing in respect of the latter from the *Monthly Review of Business Statistics*, which is restricted mainly to economic indicators. Later figures in the series, and other series being seasonally adjusted, are published in the *Monthly Review of Business Statistics*, the *Digest of Current Economic Statistics*, and in other monthly and quarterly publications of the Bureau. The purposes of the publication are to provide a comprehensive long-term series of both original and seasonally adjusted data and to give a detailed description of the methods of adjustment used. The bulletin is issued annually, following annual re-analyses of the series.

For example, particular items of production and overseas trade are largely omitted.*

The publication *Manufacturing Commodities, Principal Articles Produced* (Ref. No. 12.26) contains a detailed alphabetical index of commodities produced in Australia.

Detailed export and import statistics are shown in the following publications: *Australian Exports, Country by Commodity* (Ref. No. 8.4), *Imports Cleared for Home Consumption* (Ref. No. 8.7), *Australian Imports, Country by Commodity* (Ref. No. 8.19), and *Overseas Trade* (Ref. No. 8.11).

No references are given in this index for the *Official Year Book of Australia* and the *Pocket Compendium of Australian Statistics* as each of these publications contains a detailed index. The Year Book should be regarded as the principal general statistical reference work produced by the Central Office of this Bureau. No references are given to the Northern Territory and Australian Capital Territory Statistical Summaries, which contain a comprehensive range of statistics for those Territories, or to the folder *Australia at a Glance*, which gives a concise statistical summary for Australia.

Where more than one reference to a subject is given, the chief reference, wherever it has been possible to determine it, is indicated by bold type.

New publications or changes in publications released after 30 April 1976 are not included in this index.
